REPORT OF LEE FIRE DEPARTMENT, 1968

The Fire Department answered 36 calls in 1968. 8 for grass or woods, 8 to the Town Dump, 1 building in town, 1 chimney, 7 Mutual Aid calls, and 11 miscellaneous calls that covered about everything but fires.

Self-contained air masks were purchased and men trained to use them. The Auxiliary donated a resusitator, and members also practiced some with it.

Structural fire damage was less than \$ 100 in 1968, but permit fires, or fires without permits ge-ting out of hand are a problem. Unless more citizens will put in some time and effort, it looks to me as if the end of the Volunteer part of the Fire Department is near. Meetings are held on the second Thursday of each month, and anyone is welcome to attend.

REPORT OF FOREST FIRE WARDEN & DISTRICT CHIEF

People cause fires. Our records show that the number of fires increase in an area as the population increases and our state is growing tremendously. This means that we all must be aware of fire causes and do our best to prevent their occurrence.

When we are very young the lighted matches is an adventure, burnt fingers and a dropped match is another fire. A little older we like to have a woodland cookout, or go out by ourselves for a smoke but fire and forests get together for another statistic. We adults like to clean up in the spring, burn the old debris and the dead grass, result - escaped fires and much personal expense.

With new homes and summer cottages located in woodlands and with abandoned fields and forests crowding the back yard of our village's streets, it is necessary that everyone be aware all through the fire season, which comes with the disappearance of the snow, of the need to be careful with outdoor fires and fire sources.

Report of Forest Fire Warden& District Chief (cont.)

The following action will help:

1. To teach our children the danger of lighted matches.
2. To never discard lighted smoking material from a car or while walking through fields or woods.
3. To safely dispose of rubbish preferably at the town dump. If you must burn -
 - a. You need a written permit from the town fire warden for all debris burning except when the ground is covered with snow. Cooking fires in outdoor fireplaces or in charcoal brasiers in your own back yard is permitted on notification of the warden.
 - b. The warden is forbidden by regulation to allow burning of household rubbish on grass by householders between 9:00 A.M. and 5:00 P.M.
 - c. Have equipment on hand to control the fire before you light the match.
4. Promptly report any fire out of control to your fire warden or fire department.

Help to keep our town out of the fire occurrence column and save your tax dollars for sueful purposes.

DURHAM AMBULANCE CORPS

This is a special report to the people of Lee about the Durham Ambulance Corps which has been making free service available to Lee Townspeople for nearly a year.

The Durham Ambulance Corps was organized as a memorial to Dr. George G. McGregor, who served Durham - and many people in Lee and Madbury - as a general practitioner for 34 years until his death in March, 1967.

Funds were raised in his name to purchase and equip an ambulance and an organization was formed to train men and women as ambulance attendants and to operate the service. The Durham Ambulance Corps has been established as a free service to the people of Durham, Lee and Madbury and to students and employees of the University of N. H. The only charge is made to transients.

The McGregor Memorial Ambulance is housed in the Durham-UNH Fire Station and it will be dispatched in any emergency by a call to 868-5531.

To provide this free service, the Durham Ambulance Corps is asking each of the three towns and the University to appropriate a share of the operating costs.
